

Creek Meadow Park TRAIL SYSTEM – Levi Kammer Eagle Project Alpine, UT

My name is Levi Kammer , I am 14 years old and I am on the Lone Peak High School Mountain Bike Team. I love to ride my bike on the Murdock Canal Trail . My Eagle Scout Project goal is to make a network of trails in the Highland ditch off of the Murdock Canal Trail. I want to be able to create some fun trails for beginners and advanced riders. Thanks for taking a look at my project and hopefully it will get approved.

Example –
Lambert Park
Alpine, Utah

PROPOSED IDEA – Create some fun loops for people to hike, run or bike. Get more people off the couch and out in nature.

Three Loops –

- 1. Beginner – Green Trail**
- 2. Intermediate – Blue Trail**
- 3. Advanced - Black Trail**

Future Trail

All trails connected
By the bridge

PROPOSED MAP and LOOPS.

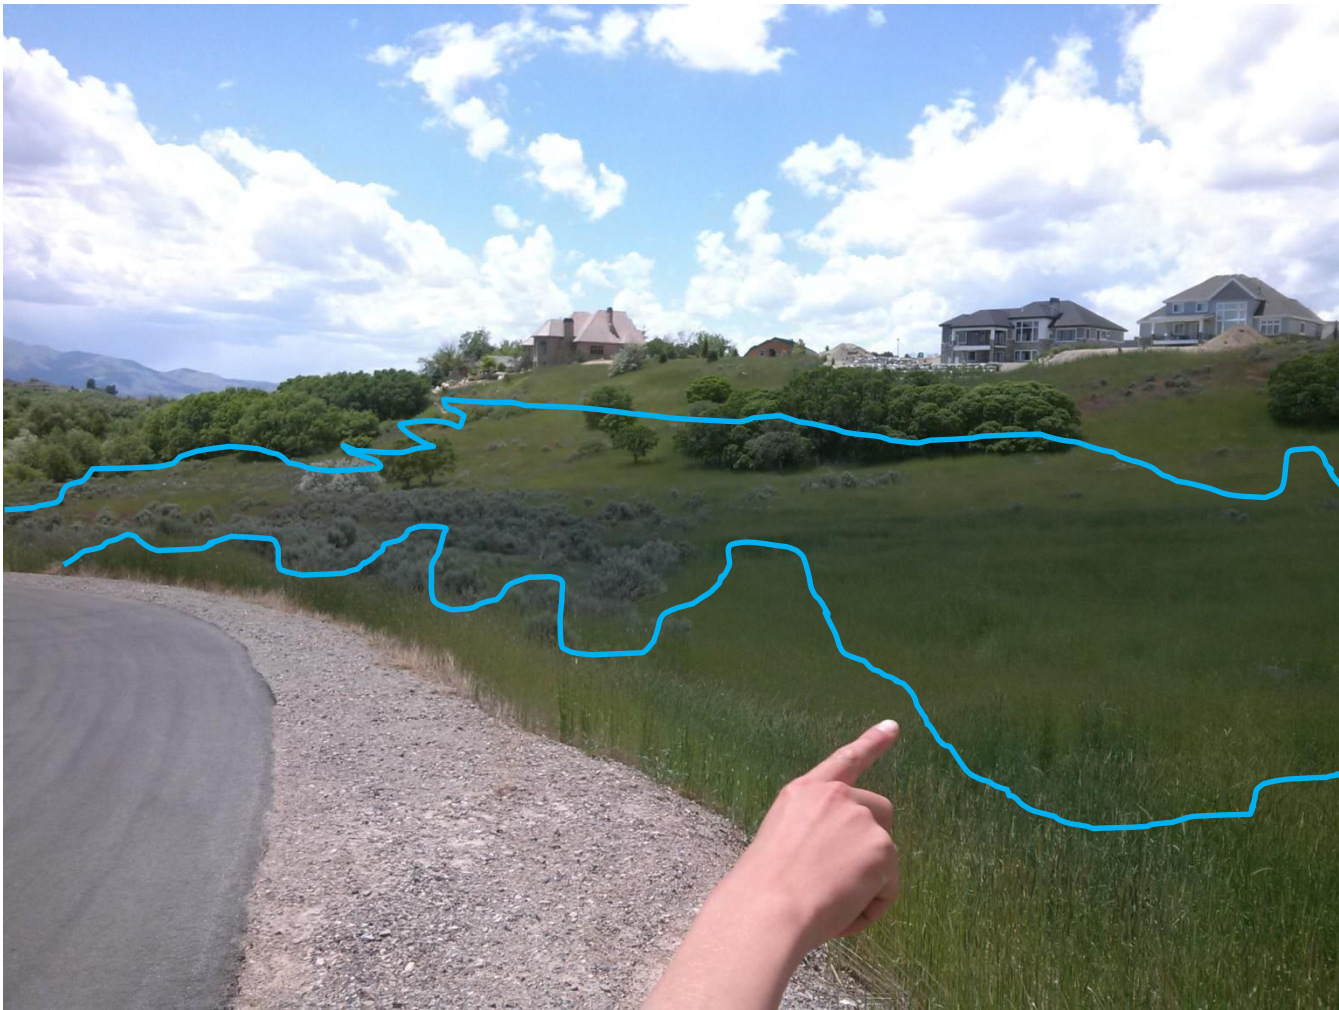

Three Loops now with a potential 4th loop in the future –

1. Beginner – Green Trail
2. Intermediate – Blue Trail
3. Advanced - Black Trail
4. Future Loop – Purple Trail

Advanced Loop

Will be a 2 mile loop and will be on the South East corner of the park. Will be good for running, hiking and cycling. Challenging switch backs and downhills with a few obstacles.

Intermediate Loop

About a 1.5 mile loop with fun flowing single track in the western area of the park.

Beginner Loop

About 1/2 a mile loop located closer to the creek in the center of the park. A great mellow flowing trail to get kids learning how to ride bikes off road.

Trail Head Sign

There will be a sign at the bridge giving everyone a map of the loops and mileage along with safety tips and trail etiquette rules.

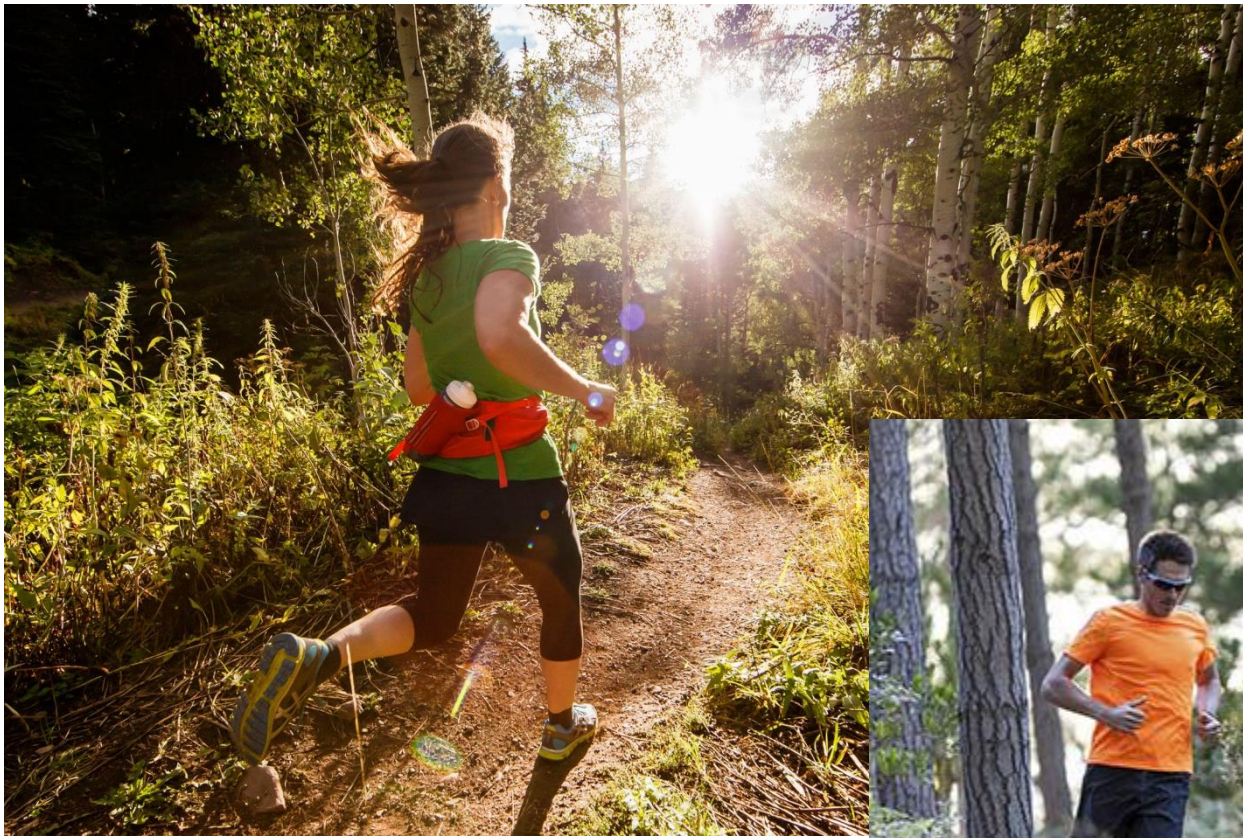

Trail Signs

There will be a few small trail signs out along the trails showing the direction and the name of the trails.

GOALS

NATURE HIKES FOR FAMILIES – One of the four goals for this project, is family fun. These trails will be great for all ages and family's to get out and enjoy nature. These trails weave in and out of the trees by the river creating a beautiful hike.

GOALS

TRAIL RUNNING – These trails are great for running, they connect right on to the Murdock canal trail where lots of Highland residents already run.

GOALS

High School Team Practices – With the growing number of school bike teams, space to ride is important. These trails would really benefit the local high school and Jr high school teams and create a fun safe place to practice.

GOALS

Family Bike Rides – These trails are perfect for all ages and ability level riders to have fun. The beginner loop will be a great place for young kids to get out and learn the awesome sport of biking. It will be a great way for families to ride together.

FUTURE PLAN

Get a few more of my friends and teammates who need Eagle Projects to finish the Purple Trail and to add benches along the trails with maybe wildlife and plant life information signs.

THANK YOU FOR YOUR TIME

Lets get together and create more ways for Highland residence to stay active and enjoy Mother Nature.
