Subject: east west corridor through Developmental Center property

Dear Commissioner Ellertson

I am writing to let you know of our support for the east west corridor that is planned to extend through the Developmental Center Property in Highland. We have implemented some short term fixes to address increasing volumes of traffic in the area, specifically vehicles eastbound on SR-92 turning right to head southbound on North County Blvd. This traffic will be alleviated in the long term by construction of the east west grid between Alpine Highway and North County Blvd. We strongly support Highland City and Utah County in making this important connection. Creation of such a grid system helps our regional and local roadway systems function well into the future.

Respectfully,

TeriAnne S. Newell, P.E.

UDOT Region 3 Director
